MultiBay LED 50

Multi-function Floodlight

LED powered floodlight with aluminium die cast body and technopolymer screwable top for quick access to the junction box. Screen is made of frosted tempered glass to avoid any glaring.
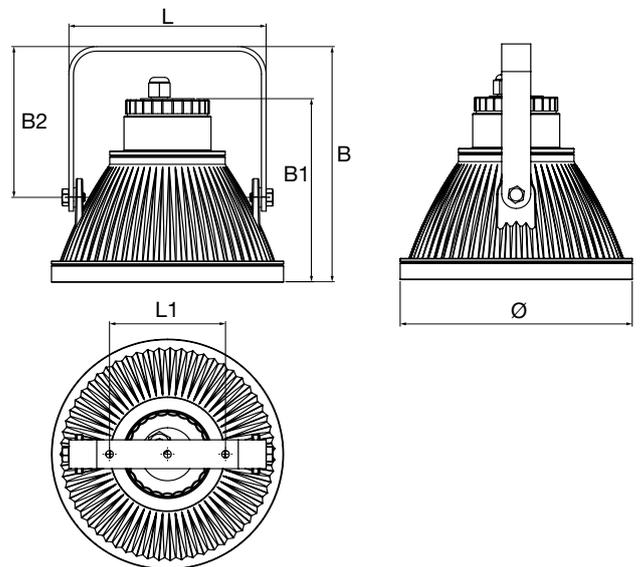

Versatility is the great invvovation in this fixture that can be installed suspended with steel wires, on wall with an adjustable bracket and on ground with a foot base accessory and a single spyke.

Its small dimension makes Multibay ideal for both architectural and industrial types of installation.
