A new concept of energy-efficient lighting solutions

BS240 LED

IP66

Industrial LED luminaire with aluminium body and 3 mm toughed polycarbonate diffuser with a high level of strength and durability, suitable for sports halls, industries, etc.

20000 lm

LENS FILA LED

IP40

The luminaire is designed for mounting end to end in continuous rows, suitable for big indoor applications such as retail and supermarkets.

9000, 9900 lm

ACCIAIO EXTREME LED

IP66

Industrial LED luminaire, suitable for outdoor installations for demanding applications in high-risk areas with presence of mechanical vibrations & electromagnetic disturbances.

7000, 9900 lm

LUNGALARGALUCE EXTREME

IP65

High-performance emergency luminaire with excellent mechanical strength IK09, perfect for installations in explosive atmosphere spaces (ATEX 2014/34/EU, zone 02 & 22).

FUNZIONE³ LED

IP40

Downlight LED with different beam solutions integrated. Funzione3 LED has a patented way to change the PMMA optics; it's able to rotate and change the lens configuration.

1500, 2700 lm

EUROCOMPLETA LED

IP65
IP42

Emergency LED ceiling/recessed luminaire with an innovative optical system. Luminaire offers a possibility to set SE or SA mode and select 1h or 3h autonomy.

LOGICA LED ULTIMATE

IP65

A high-performance emergency luminaire which offers a new solution with high thermal resistance, high battery duration and high luminous flux.

FORMULA 65 LED Li-Fe

IP65

Highly flexible emergency LED luminaire with a double-reflective optics. New efficient battery offers the possibility to set high duration or high luminous flux (2200 lm).
